|  |           |
|--|-----------|
| <b>I. Introduction.</b>                                    | <b>4</b>  |
| <b>II. Bio-functional Eco-architecture.</b>                | <b>5</b>  |
| II.1. Our Era.   | 5         |
| II.2. Philosophical Background.                            | 5         |
| II.3. The Origins of a new Style of Architecture.          | 6         |
| II.4. The Skin Theory.                                     | 7         |
| <b>III. The Bio-functional Checklist.</b>                  | <b>8</b>  |
| III.1. Summary   | 8         |
| III.2. Visual  | 8         |
| III.3. . . . and tactile.                                  | 8         |
| III.4. . . . and Atmospherics.                             | 8         |
| III.5. . . . and Life Supporting.                          | 9         |
| III.6. . . . and Bio-energy Collecting and Life Supporting | 9         |
| III.7. . . . and Bio-social and Cultural.                  | 9         |
| III.8. . . . and Educreational.                            | 9         |
| III.9. . . . and Building-Mechanical-Economic.             | 9         |
| III.10. . . . and Maintenance and Growth.                  | 9         |
| <b>IV. The Need for Sculpcrete</b>                         | <b>11</b> |
| IV.1. The Lay-W/Man's Feeling.                             | 11        |
| IV.2. Professional Analysis.                               | 11        |
| IV.2.1. Historical Context.                                | 11        |
| IV.2.2. None so Infuriatingly Blind As Those . . .         | 11        |
| IV.2.3. The Hypocritical and the Hopeful.                  | 12        |
| <b>V. Sculpcrete in Eco-architecture.</b>                  | <b>13</b> |
| V.1. The Origins of Sculp-crete.                           | 13        |
| V.2. The Materials.  | 14        |
| V.2.1. The Structural Setting Mixture.                     | 14        |
| V.2.2. Expanded Polystyrene Formliners, or Forms.          | 14        |
| V.2.3. The Solvents.                                       | 15        |
| V.3. Sculpcrete Methods.                                   | 15        |
| V.3.1. Shaping Moulds.                                     | 15        |
| V.3.2. Mould Production.                                   | 16        |
| V.3.3. Creative Mass-Production Machine.                   | 16        |
| V.3.4. Mould Colouring.                                    | 19        |
| V.3.5. Casting.  | 20        |
| V.3.6. Finishing.  | 25        |
| V.3.7. Weathering and Maintenance.                         | 25        |

|  |            |
|--|------------|
| <b>VI. Realisation.</b>  | <b>27</b>  |
| VI.1. Examples Satisfying Visual Needs;                            | 27         |
| VI.2. . . . and Acoustic and Tactile Needs;                        | 30         |
| VI.3. . . . and Atmospheric Needs;                                 | 40         |
| VI.4. . . . and Life Supporting Needs;                             | 44         |
| VI.4.1. Bio-Walls.   | 45         |
| VI.4.2. Mini-growth.   | 48         |
| VI.4.3. Bio-floors.  | 49         |
| VI.5. . . . and Social Needs;                                      | 51         |
| VI.5.1. First Educreational Application — Underpasses.             | 51         |
| VI.5.2. Educreational Kindergarten.                                | 59         |
| VI.5.3. Children Protection Centre Panels.                         | 62         |
| VI.5.4. National & Regional Character in Architecture.             | 67         |
| VI.6. . . . and Creative Participation Needs.                      | 83         |
| VI.6.1. Architect's Participation in Design.                       | 83         |
| VI.6.2. Client Participation.                                      | 83         |
| VI.6.3. Sculp-crete for Schools.                                   | 84         |
| VI.6.4. Sculp-crete School kit.                                    | 87         |
| VI.6.5. The Hex, Public Participation.                             | 88         |
| VI.6.6. Perth Pageant 1979. — Townscape.                           | 89         |
| VI.6.7. Public Projects.   | 105        |
| VI.6.8. Free-standing Figures.                                     | 106        |
| <br>   |            |
| <b>VII. Integrated Bio-functional Industrialized architecture.</b> | <b>107</b> |
| VII.1. Mass-production of Sandwich Panels.                         | 107        |
| VII.2. City in Saudi Arabia.                                       | 107        |
| VII.3. Medical Consultants Residence.                              | 108        |
| VII.4. Library Resource Centre Goomalling.                         | 108        |
| VII.4.1. Origin and Organisation.                                  | 108        |
| VII.4.2. Criteria for Design.                                      | 109        |
| VII.4.3. Pre-fabricated Sandwich Roof.                             | 109        |
| VII.4.4. Walls and Foundation Plinth.                              | 110        |
| VII.4.5. Micro-climatic Controls.                                  | 111        |
| <br>   |            |
| <b>VIII. Epilogue</b>  | <b>112</b> |

---

## **Dedicated to my wife and partner**

For photographs in this book I want to thank  
Henry Bartnik, Jean Ritter, Ernest Polis, Ralph Hibble, Leonora Ritter, Paul Ritter.  
For drawings Witold Generowicz.

Acknowledgements are an integral part of this book. If I have forgotten any one the loss is mine as well as theirs and I humbly apologise.
